

Birch Remote Control User Guide

1. Operation

NOTE - This remote control operates set-top box (STB) functions only. When the remote control is first operated all buttons transmit commands for the STB. The exact button function will depend on your service provider. When pressing a remote control button, point the remote control towards the front of the STB to ensure correct operation. Do not cover the infra-red (IR) window at the front of the STB.

When a button on the remote control is pressed, the STB standby button will flash.

If a button is pressed for more than 30 seconds the remote control will stop transmitting commands to preserve battery life.

2. Remote control layout

- 1 STB standby button
- 2 STB PVR transport buttons
- 3 STB menu button
- 4 Back button
- 5 Volume up and down buttons
- 6 Picture -in-Picture on/off button

Note: Some button functionality (e.g. PVR) may not be available on specific models of STB.

3. Inserting batteries

1. Slide the battery housing cover downwards to remove.
2. Insert 2 x AAA batteries observing the correct polarity.
3. Refit the battery housing cover.

Battery information

Do not mix different types of battery or old and new batteries.

Do not use rechargeable batteries with the remote control. Do not attempt to recharge the batteries.

Remove the batteries from the remote control if you are not going to use it for several weeks, to avoid the risk of leakage.

Immediately remove any leaking batteries. Take care when handling leaking batteries as they may cause burns to the skin or eyes, or other physical injuries.

Please respect your environment and any local regulations and dispose of old batteries in a responsible manner.
